

Important notes: Pay attention to 'C19' and 'C21'.

'S2' and 'S3' Should be using 'Interrupt mode!' And 'S4' should be using 'scanning mode'.

PGA2311 SDO is NULL interface.

J5' is a four - channel audio input connector.

J7? is audio output connector.

Attention to isolated digital ground(DGND) and analog ground(GND) When you draw PCB.
